

SCENARIO

“Create IPO Chart, write the pseudocode and draw the flowchart for the following problem:

”

NAME	MATRIC NO	GROUP
IRDINA NADHIRAH BINTI BAHANUDDIN	22C18G026	2

PROBLEM:

Write IPO Chart, Pseudocode, and Flowchart to calculate the monthly gross salary of a worker at a FoodMeow. Every month, the basic salary will be entered, his allowance is five percent (5%) of basic salary, and house rent allowance is twenty-five (25%) of basic salary.

SAMPLE OUTPUT:

Sample Output:

--

IPO CHART		
INPUT	PROCESS	OUTPUT
Basic_salary Allowance=0.05 House_rent_allowan ce=0.25	Monthly_gross_salary=basic_salary+(0.05 *basic_salary)+(0.25*basic_salary)	Print_monthly_ gross_salary
Variables: Flout basic_salary; Flout allowance=0.05; Flout house_rent_allowa nce=0.25;		

PSEUDOCODE:

Start

Prompt basic_salary

Read basic_salary

Read allowance=0.05

Read house_rent_allowance=0.25

$\text{Monthly_gross_salary} = \text{basic_salary} + (0.05 * \text{basic_salary}) + (0.25 * \text{basic_salary})$

Print_monthly_gross_salary

End

FLOWCHART:
